December 2019

Dear families and friends,

It is time to think of another year passing and we think about all of the things we are blessed to see and be with our family and friends. I don't get to go South any more to see loved ones and friends; but I stay busy with my strong exercise class and other appointments after I passed 80+ years old 😊. I do drive and keep all of my other appointments.

My sons are doing very well in health and their jobs. All of my grandchildren are out of school except the two younger granddaughters, Kenya and Nairobi. Kenya is a senior in high school planning for college next year. She is on the honor roll. Nairobi is in the seventh grade and doing very well and on the high honor roll. I am very proud of my grandchildren, they are doing very well in school and the others have very good jobs.

In October, one of my younger sisters, Catherine, moved from Washington DC to North Branford with me. We are enjoying good meals every day. She is a good cook. We get to do things together.

Thanksgiving was at my house this year. It was good to have my sister Catherine help with the cooking. I was very happy to have all of my sons and their wives and all of my grandchildren (including my oldest grandson's wife). They also helped prepare some of the food. My sister, Peggy, and her husband, Jimmie and son Jimmie Jr. came. It was an enjoyable and happy time to be together with family.

We are looking forward to the next holiday to celebrate and to see a New Year and a new decade.

Love,

Thelma L. Mouning
